

KATTER *Logue*

f u r n i t u r e

Hello and welcome !

This is the first KATTERlogue of my capsule furniture collection, which now features seven pieces.

Thanks for taking a look,

... Jiri M.R. Katter

sideBow

Sideboard

The key to stylish interiors? Clean lines.

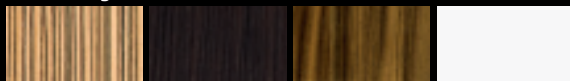

A benchmark set by the subtle, open silhouette of the sideBow: a design fascinating in its simplicity; a perfect complement to any stylish interior.

A unique form with many possibilities.

An elegant sideboard or your favourite place for accessories, a temporary accent or a timeless finishing touch for any tasteful interior – the sideBow's versatility is virtually boundless, holding even heavier objects without buckling.

Features

- Genuine wood veneer surface
- Fitted with protective felt pads for hard floors
- Hand-crafted low weight construction
- High load capacity (up to 100 kg)
- Ready-assembled upon delivery

 made in germany

**Stable, solid – and light: quality,
made in Germany.**

The sideBow is lightweight in spite of its solid construction: the result of a specially developed manufacturing technique. Each unit a precisely and individually hand-crafted beauty representing „made in Germany“ at its height - ensuring that it will stay on top form whatever you put on top.

dogBar

feeding bowl for dogs

Good taste begins at feeding time

For design lovers, the dogBar is the epitome of style: the solid wood body contrasts boldly with the removable, high-shine stainless steel bowls – a dog bowl that provides the best in form and function.

Easy on the eye. Easy for your dog.

Looking good might not mean much to your four-legged friend, but the dogBar's comfortable eating height certainly will. The dogBar also comes in various sizes – for every dog, big or small – while the sturdy structure minimises slippage and ensures stability.

Features

- Sturdy ply-wood body
- High-shine stainless steel bowls (re-orderable)
- Dishwasher safe bowls
- Slip-proof rubber feet
- Ready-assembled upon delivery

 german design — swiss made 

**The last word in quality
– naturally sustainable.**

A real design delicacy, the dog-Bar shines with the quality of its craftsmanship – 100% Swiss made. Sustainably-managed forests provide the wood for the main structure, which is then worked by Swiss specialists, employing the same wood-ply process as used in the casement of the legendary Eames Lounge Chair.

catBar

feeding bowl for cats

Good taste begins at feeding time

Cats have their own minds – just like lovers of good design. The catBar caters for all tastes: the combination of solid wood and high-shine stainless steel makes it the most elegant feeding bowl for velvety-pawed friends. The removable, dishwasher-proof bowls also ensure easy cleaning.

Features

- Sturdy ply-wood body
- High-shine stainless steel bowls (re-orderable)
- Dishwasher safe bowls
- Slip-proof rubber feet
- Ready-assembled upon delivery

beBoard

modular shelving system

Shelving on a different level.

Your favourite books deserve a special stage – the beBoard gives it to them. With its graduated shelf-widths, the modular shelving system turns tidying your books into an aesthetic game of form and proportion.

For a witty accent, a single beBoard module will suffice. For a real show-stopper, you can seamlessly combine two or more of the two module types. You'll create rhythmic wave-forms, providing a unique stage for books or objects.

Quality takes on a new form.

The beBoard connects technical innovation and durable quality in a unique way: 14kg of real wood veneer is carefully moulded by skilled craftsmen in Switzerland, using a specially-developed process. Despite its weightless appearance, it is well-supported by a special wall mounting.

The solid construction and excellent craftsmanship make the beBoard extremely strong and durable – for all those things that call for a special place.

Features

- Solid plywood body
- Can be combined in a range of ways
- High-load capacity
- Ready-assembled on delivery

Models

Two types of module available:
beBoard module A & beBoard module B

noteBar

notebook-table

Get set for comfort. Wherever you sit.

Workplace or favourite place? Now you don't have to choose between the two: the noteBar makes working with a notebook computer a pleasure in almost any comfortable place.

The best place to go online: Your favourite place.

No more over-heated thighs! The noteBar gives you a stable platform, combining a relaxed web-browsing experience with ergonomic design – on the sofa, or in bed. The noteBar is as easy to store as it is to use. For any occasion, for any idea, for all the comfort in the world.

setBase 2.0

DJ-table

Uncompromisingly original.

Want to clear the decks for your music and DJ equipment? There's only one way to do it: the setBase has been setting the standard for functional, well-considered elegance since 2001.

Whether it serves as a harmonious accent to your home or as an eye-catching centrepiece for clubs and bars, the setBase embodies timeless design with consummate quality.

New:

- slanted side panels
- Improved cable routing
- Headphone holder

New: the best setBase ever.

A classic improved: this re-worked version of the setBase gleams with special touches that turn making music, and listening to it, into an even more enjoyable experience.

New, slanted sides lend the form another distinguishing feature. The optimised cable-routing makes it easier to keep things tidy – and thanks to the new headphone holders, the most essential aspect is always within reach.

setBase. Quality that stands on its own four feet.

The setBase clearly stands out - straight-up quality. The first-class materials guarantee sturdy durability that sets the setBase apart from the copy-cats.

Its solid combination of steel and bullet-proof glass makes the setBase a platform that can't be knocked. An additional bonus: shock-absorbing feet. They ensure that you can work virtually vibration-free in any environment.

Features

- Load capacity per level >100 kg
- Shock absorbing feet, adjustable height
- All stainless steel screws
- Virtually vibration-free construction
- Suitable for all standard turntables (length-/crossways), CD players or other sound equipment
- The second level is ideal for additional equipment or sound media
- Practical height (floor to slipmat ca. 104 cm)

Everything's considered; anything's possible.

Turntables and sound equipment require just the right space. The setBase offers it – at an ideal working height, and in an XL version.

Perfectly tuned to the classics, allowing you countless arrangements for creative music-making. The setBase is flexible too: you can refine the design yourself with a range of groovy colour filters and light sources.

	Total size (WxHxD)	Work surface (WxHxD)
setBase 2.0 N	127 cm x 105 cm x 48 cm	125 cm x 96 cm x 47 cm
setBase 2.0 XL	173 cm x 105 cm x 48 cm	171 cm x 96 cm x 47 cm

Additional accessories

- Interior lighting 21Watts | 220Volts (assembled)
Delivered with your choice of colour filter (replaceable)
- Aluminium multi-way connection (220 Volt) complete with line filter with voltage surge protection (REV), terminal insurance up to Euro 5,000, six jacks, on/off switch, 3m-long cable.
- Rubber mat (0.4 x 1.4 m) to cover connecting cables at floor-level (for free-standing positioning)

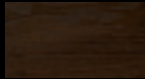

Models

Available in a choice of two covers, with two frames and two sizes to choose from.

Cover

Toughened safety glass, matt finish on one side

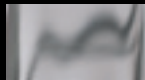

genuine wood veneer, cherry dark (on request)

Frame

Steel, white plastic coating

Steel, chromed

noteBase

high desk

Time to take a stand.

Work straight - a question of poise and posture. With its elegant, timeless form, noteBASE embodies the perfect alternative to the desk-bound daily grind. Whether you're at home, at the office or meeting clients, with a stool or on your own two feet: for active minds and bodies, the noteBase is the right place.

Healthy work practices combined with comfort.

It's been medically proven: everyone's back needs variation. Working at the noteBase comes as a welcome relief to your spine, meaning that it's not only good for you but also comfortable: your legs have more space to move, and there being more space for all your kit, including special storage space for documents and computer accessories.

Quality that wins top marks for style.

The noteBase represents the highest manufacturing quality - it's robust, durable and 100% Made in Germany. Its solid combination of steel frame, bullet-proof glass or genuine wood veneer makes it a unique workspace - instilling harmony and perfectly complementing stylish interiors.
